Extracurricular Activities & Interests

Actively engaged in university-level football and basketball, representing my institution in inter-departmental and inter-university competitions. These extracurricular activities have strengthened discipline, leadership, resilience, and teamwork in competitive and high-pressure environments. Through consistent involvement in sports, I have developed strong time management skills and a performancedriven mindset that complements my academic and professional responsibilities. Alongside athletics, I maintain a strong interest in financial markets, applied research, and continuous professional development, reflecting a balanced profile of physical discipline and intellectual growth.
